

Eligibility for Cosmetic Tattoo

To qualify for cosmetic tattooing, there are several factors to consider, including your medical conditions, medications and any recent medical treatments, which may impact your eligibility.

You are **NOT** eligible if you meet any of the following criteria:

- Under the age of 18.
- Pregnant or breastfeeding.
- Have a heart condition.
- Taking immune-suppressing medications.
- Using steroid medications.
- On blood thinning medications.
- Suffering from health conditions (e.g., active skin diseases, cancer in the treated area, infectious diseases, keloid scarring, glaucoma, epilepsy, diabetes).
- Allergic to makeup, pigments, or numbing agents.
